

# CELIAC CANADA

## DR. JAMES A. CAMPBELL RESEARCH FUND

APPLICATIONS FOR TWO GRANT PROPOSALS NOW **OPEN**

### JAC RESEARCH AWARD

- **\$25,000** grant for research projects in Canada relevant to celiac disease, dermatitis herpetiformis, and gluten-related disorders
- Open to all types of relevant research

### FUN FACT

Since its inception in 2000, the JAC Research Fund has awarded over \$430,000 in grants.

### DEADLINE

APRIL 30, 2024

### FOR MORE INFORMATION:

Email: [clientsupport@celiac.ca](mailto:clientsupport@celiac.ca)

<https://www.celiac.ca/healthcare-professionals/research-awards/>

### JAC YOUNG INVESTIGATOR AWARD

- **\$5,000** for any kind of research into celiac disease, dermatitis herpetiformis, and gluten-related disorders
- Available to students and those who have recently completed degrees

## **Dr. J.A. Campbell Research Award**

Established in 2000, the Dr. J.A. Campbell Research Fund is used to continue the valuable work begun by Dr. Campbell, investigating, and reporting on all aspects of celiac disease and the gluten-free diet, and to encourage others in the field who share this interest. It is the only celiac specific research granting program in Canada.

---

January 2024

Dear Stakeholder,

Celiac Canada (CCA) is pleased to announce applications for the **2024 Dr. James A. Campbell Research Awards** are now open. Since its inception, the J.A. Campbell Research Fund has distributed over \$350,000 in grants.

Two grants are available – one main grant for up to **\$25,000** and a second for young investigators for up to **\$5,000** – offered by the CCA for research projects in Canada of a scientific, applied science, and/or medical nature relevant to celiac disease, dermatitis herpetiformis, and/or non-celiac gluten sensitivity, or the socio-economic implications of delayed diagnosis and/or living with these conditions.

For the next two years, CCA is particularly interested in research that is geared towards investigating vulnerable populations or under-investigated communities related to celiac disease such as individuals who are impoverished, food at risk, newcomers, racialized and/or indigenous communities; however, applications are not limited to this subject area.

Please follow this link to apply and learn more <https://www.celiac.ca/healthcare-professionals/research-awards/>

Deadline is April 30, 2024. If you have questions, we invite you to email [clientsupport@celiac.ca](mailto:clientsupport@celiac.ca) or call 905-507-6208 ext 227.

With thanks,

A handwritten signature in black ink, appearing to read "Melissa Secord".

Melissa Secord  
National Executive Director  
Encl.

## Dr. J.A. Campbell Research Award Overview

*Grants in Aid of Research in Celiac Disease, Dermatitis Herpetiformis and/or Gluten Sensitivity in Canada*

### *Award*

A grant of up to **\$25,000** is offered by Celiac Canada (CCA) for research projects in Canada of a scientific, applied science, and/or medical nature relevant to celiac disease, dermatitis herpetiformis, and/or non-celiac gluten sensitivity, or the socio-economic implications of delayed diagnosis and/or living with these conditions.

### *2021 – 2024*

CCA has an interest in investigations covering celiac disease and vulnerable and/or under-investigated populations (indigenous, newcomers, impoverished and racialized communities), seniors, and the impact of COVID-19, however, applications are not limited to this subject area.

### *Purpose*

This award is to encourage research and further the understanding of the full range of implications of celiac disease (gluten-induced enteropathy), dermatitis herpetiformis, and/or non-celiac gluten sensitivity.

### *Application*

Applicants must download and complete our application form which can be downloaded at <https://www.celiac.ca/healthcare-professionals/research-awards/>

**Completed applications must be received by Celiac Canada no later than April 30, 2024**, and each will be acknowledged. These applications will be forwarded to the Professional Advisory Board of Celiac Canada for adjudication.

### *Notification*

The successful candidate will be formally notified by **June 30, 2024**.

### *Award*

Payment and Reporting for the Award are governed by CCA's 'Payment and Reporting Guidelines'. Generally, grants are payable in two (2) instalments. The first instalment (80% of the award) will be paid upon receipt or notice from the investigator of ethics approval, and that the project is ready to start. The second instalment (20%) will be paid upon receipt of a satisfactory final report.

## Dr. J.A. Campbell Research Award Overview

*Grants in Aid of Research in Celiac Disease, Dermatitis Herpetiformis and/or Gluten Sensitivity in Canada*

### *Publicity and Access*

The Award recipient is expected to present the work following its completion either at the next CCA National Conference and/or a special webinar. If there are any expenses to attend or participate in these meetings, they will be covered by Celiac Canada in accordance with CCA's guidelines. Notwithstanding the author's rights to publication, the CCA shall be granted the right to publish the final report, whole or in part, in its publications including electronically.

### *Past Winner (2007)*

"The first peer review funding I obtained for realizing my dream of building a long-term research program in celiac disease was the CCA's James A. Campbell Research Grant. The CCA and its Professional Advisory Council understood the need for such research, and this seed grant was fundamental in allowing me to build a solid base. Thank you CCA's James A Campbell Research Grant for believing in my vision!"

Elena Verdú, MD, PhD, Principal Investigator, Professor, Division of Gastroenterology, Department of Medicine McMaster University

### *Tips for Applicants*

- **Clarity** - The proposed research, methodologies, and limitations are thoroughly explained for the panel.
- **Novelty** - How does this research differ from current research and how will it impact celiac disease knowledge?
- **Feasibility** - Is the timeline reasonably planned with the amount of resources available?
- **Knowledge Translation** - How will information dissemination be conducted?

**Overview** - One paragraph for each section

Relevance of Proposal to Celiac Disease or Gluten Sensitivity
Summary of Research Proposal for Lay Public
Previous Relevant Research by Investigator

**Abstract**

Describe project background, hypothesis, methods of research and how this research will benefit our knowledge about celiac disease or gluten sensitivity and help in the diagnosis and management of these conditions. Indicate time need to complete the research. NO ATTACHMENTS TO THIS PAGE

**Proposal Body**

Please provide the background, hypothesis and aims, preliminary results if any, experimental design including statistical justification for sample size, expected findings and how this research will improve diagnosis, care and/or quality of life of people with celiac disease. A maximum of 5 pages are allowed for this section.

References to be attached at the end of this section.

**Proposal Body – page 6 of 5**

**Proposal Body – page 7 of 5**

**Proposal Body – page 8 of 5**

## Budget

Name of principal applicant		Amount requested	
	Number	Amount	Percentage of Total
A. Equipment			
B. Personnel			
Technicians			
Other Personnel			
Fringe Benefits			
C Materials & Supplies			
Animals			
Expendables			
Services			
Other (specify below)			
D. Travel			
Total			100%
Other Details			

## Principal Research Background

Principal applicant (Surname, given names)			
Education			
Degrees	University and Location	Scientific Field	Year
Research Training			
Dates (From – To)	Institution	Department	Supervisor
Academic Positions Held			
Dates (From – To)	Institution	Department	Position
Date		Signature	

## Past Publications

Total number (excluding abstracts)

Please list papers (excluding abstracts) published during the past **five (5)** years only. Include papers accepted for publication.

### **Other Funded Research**

- A. List all research projects for which you have applied for other funding concurrently with this application. List projects for which you intend to apply for other funding in the next twelve months.
- B. List all projects for which you are currently receiving or have received funding in the past. Please state the nature of the overlap with this application.

Provide title, summary, budget, precise dates, and tenure of award(s) for grants identified under A and B. Co-applicant's funding should also be identified and any overlap should be stated.

## Ethical Considerations

Animal Research	
Enclose a statement signed by the applicant and the department head that research protocol and the care of the animals conforms to the Guiding Principles for Animal Experimentation as enunciated by the Canadian Council on Animal Care.	
Human Research	
Enclose a statement signed by the applicant and the department head that the proposed research will be reviewed in a manner which conforms with the guidelines as outlined in the Tri-Council Policy Statement: Ethical Conduct for Research involving Humans and/or Human Stem Cell Research: Guidelines for CIHR-Funded Research, and that the proposed research will not be undertaken until it has been accepted as ethical by such a review.	Human subjects:  Human pluripotent stem cells:
Biological and Chemical Hazards	
Enclose a statement signed by the applicant and the department head that the proposed research will be reviewed in a manner which conforms with the guidelines as outlined in the Public Health Agency of Canada "Laboratory Biosafety Guidelines" and that the proposed research will not be undertaken until it has been accepted as meeting the requirements regarding biological and chemical hazards by such a review.

## Dr. J.A. Campbell Young Investigator Award

*For Research in Celiac Disease, Dermatitis Herpetiformis  
and Gluten Related Disorders*

### *Award*

A grant of up to **\$5,000** is offered by Celiac Canada (CCA) for work done in Canada (or by an investigator from Canada temporarily working elsewhere and committed to return to Canada) of a scientific, applied science, medical and/or social nature relevant to celiac disease (gluten-induced enteropathy), dermatitis herpetiformis, or other gluten related disorders.

### *2021 – 2024*

CCA has an interest in investigations covering celiac disease and vulnerable and/or under-investigated populations (indigenous, newcomers, impoverished and racialized communities), seniors, and the impact of COVID-19, however, applications are not limited to this subject area.

### *Eligibility*

The individual must be a trainee in a recognized Medical or Health Sciences School, University Undergraduate, or Graduate Training Program.

### *How to Apply*

Please send either a Word or PDF document with the following:

#### **From the applicant:**

1. Statement about interest in this research and how the research will advance career plans (1-page limit)
2. Current C/V

#### **From the mentor/supervisor (2-page limit):**

1. Assessment of the applicant
2. Statement of commitment to facilitating the project
3. Statement regarding how the work will enhance the applicant's training

#### **From the applicant or mentor/supervisor:**

1. Project goals, rationale, and paragraph summary of research suitable for the public
2. Description of the research including aims, methods, and statement about how the research will advance knowledge. Limit to two pages plus appropriate supportive references.
3. Itemized budget for salary, materials, supplies and services (1 page). Travel will not be funded.

If this award is sought in conjunction with the JA Campbell Research Grant, include a statement outlining how the funds for each award will be separately used.

**Dr. J.A. Campbell Young Investigator Award**

*For Research in Celiac Disease, Dermatitis Herpetiformis and Gluten Related Disorders*

***Deadline***

Applications must be received **no later than April 30, 2024** and each will be acknowledged. These applications will be forwarded to the Professional Advisory Board of Celiac Canada for adjudication.

***Adjudication***

The Professional Advisory Council of Celiac Canada will decide regarding the winner or winners, based on the suitability and quality of the proposed work. The recommendation of the Professional Advisory Council will be forwarded to the Board of Directors of Celiac Canada for ratification.

***Notification***

The successful candidate will be formally notified by **June 30, 2024**.

***Award***

The award is payable in full following the CCA's decision, and upon receipt or notice from the investigator of appropriate ethics approval and that the project is ready to start.

***Reporting***

The applicant will submit to the CCA an interim or final report at the one-year anniversary date and a final report upon completion of the project.

***Publicity and Access***

The Award recipient(s) may be expected to present their work following its completion either at the next CCA National Conference or a special webinar. If there are any expenses to attend or participate in these meetings, they will be covered by Celiac Canada in accordance with CCA's guidelines. Notwithstanding the author's rights to publication, the CCA shall be granted the right to publish the final report, whole or in part, in its publications including electronically.
